

Qualification Statement for Woodland High School Phase 1 – Site Prep

- A. Date: *April 17, 2013*
- B. Name of Organization: *Nutter Corporation*
- C. Mailing Address: *7211-A NE 43rd Ave
Vancouver, WA 98661*
- D. Phone: *(360) 573-2000*
- E. Fax: *(360) 576-8484*
- F. Primary Contact: *Bill Gunderson*
- G. Type of Organization: *Corporation*
- H. Date of Organization: *10/1992*
- I. Name of Officers:
*President: Jerry Nutter
Vice President: Jeffrey Woodside, Jeff Deringer
Secretary: Jerry Nutter
Treasurer: Jeffrey Woodside
General Manager: Jeff Deringer*
- J. Years in Business as a Contractor: *21 years*
- K. Years in Business under Present Name: *21 years*
- L. Other Names/Formal Names under which operated: *None*
- M. Bonding Company:
*Travelers Casualty & Surety of America
Agent: Biggs Insurance – Jon Courser
PO Box 189
Vancouver, WA 98666
(360) 695-3301
Years affiliated – 21 years*
- N. Name of Principal Bank, including branch, contact info and number of years banking with them.
*Sterling Bank (formally 1st Independent Bank) 21 years
8015 Hwy 99
Vancouver, WA 98665
(360) 699-4280 Brian Fleetwood*
- O. Has your firm ever failed to complete any work awarded?
No

- P. Are there any judgments, claims, arbitration proceedings or suits pending or outstanding against organization, owners or principals? *None*
- Q. Has your organization file any law suits or requested arbitration with regards to construction contracts within the last five years? *No*

Resume

Bill Gunderson - Project Manager/Estimator

Bill has successfully estimated and managed a wide variety of projects over the last 16 years and a part of the Nutter team for the last 6 years. His experience ranges from repairing the devastated Tillamook Bay Railroad in and along the Salmon Berry and the Nehalem Rivers after the 1996 floods on the Oregon Coast to the largest Estuary Restoration project in the Pacific Northwest that took place in 2008 and 2009 at the Nisqually Wildlife Refuge. There has been countless projects in between. Bill has worked on a wide range of projects with environmental challenges and has always embraced environmentally responsible construction practices. He also helped lead Nutter Corporation in winning the 2007 Clark County DCD award for demonstrating exceptional performance in the field of Erosion Prevention & Sediment Control. As well as being environmentally responsible in construction Bill has been very aggressive leading project cost and time saving value engineering ideas, as well as working diligently to keep the project on or ahead of schedule. Bill will be available at the project 50% of the time.

Related Experience:

- Ducks Unlimited - Nisqually Wildlife Refuge Phase 1 & 2
Transform refuge back to its natural estuary state
- WSDOT - SR 14 - Marble Road Safety Improvements - Roadway Realignment
Approximately 80,000 cu y of export excavation, asphalt pavement, wetland mitigation
- Vernonia School District – Vernonia Wetland Mitigation
65,000 cy of excavation, habitat structures and wetland enhancement
- Willow Grove Mooring Basin
Excavating new mooring basin and boat launch adjacent to the Columbia River north of Woodl and, WA. Approximately 150,000 cy in water cut and armorment.
- 1996 Tillamook Bay Railroad Flood Repair
Earthen fills in and adjacent to the Salmonberry River and Nehalem River. Approximately 500,000 cy of fill, slope armorment and placement of in-water fish habitat.
- Rockaway Beach - Dune and Shoreline Stabilization
Approximately 2,200 lf of shoreline restoration using rip rap and vegetation

Resume

Tyrone Brewer - General Superintendent

Tyrone has been working in the construction industry for over 35 years. He worked his way through the ranks to become the leader he is today. Tyrone has been with Nutter since the company's inception in 1992 and has been a supervisor as long as he has been here.

Tyrone oversees the field work on all of our projects, stopping by each regularly to check on their progress. He helps the team with any issues that may come up, works with the jobsite superintendent to schedule people and equipment and to streamline the operations. He brings to this project his expertise not only in the basics of day to day operations but his experience and ability to foresee challenges and address them early in the project to insure that the project stays on schedule, or to find cost/time saving alternatives.

Tyrone will be onsite approximately 25% of the time throughout the duration of the project, unless his attention is required more, in which case he will be onsite as long as needed.
