

## 2025-2026 Senior Yearbook Portraits

The deadline for senior portraits to be submitted for the yearbook is January 16, 2026. We will accept a digital copy of the photo at the following link: [Here](#)

Make sure the image file name is the first and last name of the student. Photos submitted with file names other than the student name will be rejected and returned.

The image quality needs to be at a minimum of 300dpi and measure 3 inches tall and 2 inches wide. There should be no animals, props, hats, or other items that block or make the portrait difficult to be placed in the yearbook. You also want to make sure your senior is not resting their head on their hands and that their hands are not covering your seniors face in the photo. Outdoor photos are accepted. You will be contacted if there are issues with the senior portrait you have submitted.
