Attendance in school is crucial for a student's academic success and overall development. Regular attendance ensures that students receive consistent instruction, participate in classroom discussions, and engage with their peers, all of which contribute to a comprehensive learning experience. Additionally, attendance fosters a sense of responsibility, skills that are vital for success in both academic and professional settings.

It is essential for parents and guardians to be aware of the state guidelines regarding school attendance to support their child's educational journey. According to these guidelines:

- After one unexcused absence, the school is required to notify the family in writing.
- The state allows fifteen absences in a school year; after that, a doctor's note is necessary for any additional absences.
- After three unexcused absences, families will be notified by the District's Student Engagement Coordinator.
- Between two and seven unexcused absences, appropriate steps must be taken including the use of WARNS or other assessments, date-informed interventions, or convening the IEP or 504 team if applicable.
- Seven unexcused absences in a month may lead to an agreement with the student and parent, establishing attendance requirements.
- After seven unexcused absences in a month and not later than fifteen in a school year a Truancy Petition can be filed with the Juvenile Court.

Parents and guardians are encouraged to communicate with the school office through various channels, such as phone calls, Skyward absences requests, or emails, to stay informed and address any attendance-related concerns promptly.

## **CHARACTER STRONG LESSONS HAPPEN ONCE A WEEK IN GRIT**

- This month, freshmen will focus on showing care and the power of kindful acts, defining honesty and putting honesty into action, and using honesty to build trusting relationships.
- During the month of April, Sophomore GRIT students will be learning how to improve their mental and emotional well-being by creating positive habits. They will focus on determining and making progress towards the kind of person they want to be through class activities and individual assignments.
- Juniors will begin the month learning how to develop positive habits. They will then explore the relationship between gratitude and mood, as well as the connection between purpose and happiness.
- This month, seniors are examining how commitment impacts real-life situations. They are exploring selflessness and what it means to them and practicing normalizing kindness in their everyday lives.
