Woodland Public Schools
Where Community & Learning Connect

As you know, one of the critical needs of Woodland Public Schools is a **new high school** at some point in the near future. Although the board has not made a decision as to when a bond measure might go before voters, they would like to hear your opinion on which of the following two sites you think would make the best choice. Please read the following information about each site and then indicate which site you believe is best suited for a new high school.

Dike Access Road Site

Estimated Development Time: 48 months • 2008 cost estimate: \$57.95 million

FEATURES »

- Space for future expansion as Woodland grows
- Possible cost-sharing with neighboring properties under construction
- Located in close proximity to the Dike Access Road retail stores
- Traffic flow for students, staff, and visitors improved over current site
- Existing wetlands will require mitigation
- Will require extensive site prep and off-site road and frontage improvements

Current Site

Estimated Development Time: 42 months • 2008 cost estimate: \$55.8 million

FEATURES »

- Allows for the option to reuse and shared use of some existing facilities
- Limits future expansion options for schools on the current campus
- Potential for lower operating costs because of fewer grounds to maintain
- Little to no wetland mitigation or extensive site preparation required
- School bus facility will need to be relocated
- May require replacement of 1 or 2 sewer pump stations
- Fewer athletic and play fields for school and community athletics and activities

I favor building a new high school on the existing site. Here's why:

I favor building a new high school on the Dike Access Road site. Here's why:

I have no preference. Here's why:

Please stamp and mail or return to any Woodland school or the district office.
