

Where Community and Learning Connect

We value the uniqueness and diversity of each child. All students can learn within a safe, caring environment of staff and community. We will seek to develop in our students an understanding of the importance of hard work and how performance, effort and decisions directly affect educational and career opportunities.

To this end, we will promote academic excellence by challenging each student to develop the knowledge, skills and self-worth necessary to become a responsible contributing citizen. We must inspire our students to make learning a life-long endeavor and become actively involved in their local and global communities.

Lewis River Academy

Partnering with home-study families to support family choice and provide access to the benefits of free public education.

Lewis River Academy

Lewis River Academy is a tuition-free K-12 alternative public education program that recognizes and supports family choice education where parents are the first and most important educators for their children. Through Lewis River Academy families can enjoy the benefits of being highly involved in their child's learning while accessing the resources made available to all public school students in the State. Parents or guardians have the support of a Washington State Certified teacher who will partner with them to design a student learning plan that will help guide and ensure student success. If your child has specialized learning needs, we also offer local access to special services offered by trained providers to assess and address the learning needs of your child.

Instructional materials made available through Lewis River Academy are exceptional and engaging; covering both the core subject areas and electives. All the textbooks and instructional materials are delivered right to the family's doorstep—including books, CDs, and even materials for science labs.

Unlike many other academies, Lewis River Academy will offer a higher level of personalization, flexibility, choice and control in education to families. Because we are located here in your community, we are also able to provide opportunities for student-to-student and student-to-teacher interactions. These learning activities include field trips, literature circles, collaborative science labs and more. Through the Lewis River Academy your child can also have access to specialized courses like Graphic Design, Photography, World Languages, Horticulture and Career and Technical Education through co-enrollment.

Why Lewis River Academy?

Access to Special Services	We recognize that all students develop and learn differently, and at different rates. It is our goal to empower each student with the educational tools necessary to learn and succeed.
Tuition-Free Award Winning Curriculum	The exceptional, engaging K ¹² curriculum covers both the core subject areas and electives. Based on decades of education research, this curriculum packages high-quality lessons with mastery-based assessments that ensure students achieve success at each and every level.
Local Support from Certificated Teachers	Parents and students partner with a state-certified teacher to support their progress through the curriculum, including direct instruction when needed.
Co-Enrollment Options	Access to courses offered on campus such as Graphic Design, Photography, World Languages, Horticulture, and Career and Technical Education
Activities and Learning Meetings	Students will have the opportunity to participate in many academic and social outings. These outings may include trips to museums, zoos, parks, and other community destinations. We also encourage students to participate in learning meetings where, for instance, they can perform a science experiment together or participate in a literature discussion.
Flexible Schedules	24/7 access to courses and materials for flexible learning schedules.
21st Century Skills	Our students work collaboratively and gain valuable 21st century skills to better prepare for college and a career in our increasingly digital world.

K¹² Inc for grades K-8 is the leading provider of learning programs to public schools in the U.S.

- **K¹²'s comprehensive K-8 program** provides young minds with a learning environment that combines dynamic curriculum, teaching and support, a strong community, and special services into powerful, effective schooling.
- **K¹² offers 75 online courses in:** Language Arts/English, History, Math, Science, Music, Art and World Languages. These are developed from the ground up with rich, challenging and engaging content, **designed specifically for online delivery** and individualized learning.
- **It's not all "online".** You'll also receive boxes of traditional materials, including award-winning textbooks, CDs, videos, and hands-on materials that complement online learning.

Apex Learning for grades 9-12 takes advantage of the power of technology to create active learning experiences that keep students attentive and engaged.

- Each Apex Learning online course provides a complete scope and sequence based on national and state standards. The curriculum is organized into semesters, units, lessons, and activities.
- Multimedia tutorials provide students with opportunities to explore and understand new concepts, allowing each student to move at his or her own pace.
- Technology is used in purposeful ways to enhance the learning process. Images, audio, video, animation, and interactive elements integrated throughout the text provide multiple representations and address different learning styles.
