

FACING EVICTION?

Stay Put, Don't Panic

Getting an eviction notice can be scary. Stay in your rental and use free resources when facing eviction.

Respond to Eviction Notices

Washington State has protections in place to help tenants. It is important to request free legal assistance from Volunteer Lawyers Program and contact the Dispute Resolution Centers to respond to mediation requests.

Go To Court

Tenants have to participate in the process before using the protections. Avoiding court dates, emails or calls allows the eviction process to continue without you.

Check on Your Rental Relief Application

If you filled out an application to have your rent repaid, check the status of your application!
