

WOODLAND Public Schools

Where Community & Learning Connect

March 26, 2012

Ron Risley
39401 NW Goose Hill Avenue
Woodland, WA 98674

Dear Ron,

The Woodland School Board thanks you for allowing our repeater to be placed on your shop. We saw the work that Cascade Networks did for this job, and really appreciate that you graciously let them place the repeater on the building for this project. This will allow our local schools to have radio communications in an emergency and for day to day use, if necessary. We will also be able to hear up river to our Yale Elementary School, which will greatly help in a regional emergency.

Know that this greatly enhances our emergency plan in our District, which helps us keep the students of our District safer. Thanks for supporting our students in this way.

We understand that there have been power outages at this site, and that they are a regular occurrence. We are looking into a power backup solution with Cascade Networks. If you have a need to contact us about the repeater, please call us at (360) 841-2700.

Again, thank you so much for this gesture. We greatly appreciate it.

Sincerely,

Superintendent

Board President
