

# Kelso Public Schools 2012-13 Student Athlete/Coach Ratio

## Student-Athlete/Coach Ratio for High School

	# of Coaches Min/Max	Student-Athlete & Coaching Ratio	Exist Coach Ratio	First Added Coach	Second Added Coach	2011/12 Coaching Numbers	Projected 2012/13 Coaching Numbers
Football	7/9	11 to 1	77	78	88	10	9
Track	6/8	17 to 1	102	103	119	8	8
Wrestling	5/7	15 to 1	75	76	90	5	6
Golf	1/2	12 to 1	12	13 (.5)	24 (.5)	1.5	1.5
Swimming	2	20 to 1	-	-	-	2	2
Baseball	3	15 to 1	-	-	-	3	3
Fastpitch	3	15 to 1	-	-	-	3	3
Cross Country	2	20 to 1	-	-	-	2	2
Basketball	3	12 to 1	-	-	-	3	3
Bowling	1	20 to 1	-	-	-	1	1
Dance/Drill	1	20 to 1	-	-	-	1	1
Cheer	2	15 to 1	-	-	-	2	2
Tennis	2	20 to 1	-	-	-	2	2
Volleyball	3	15 to 1	-	-	-	3	3
Soccer	2	15 to 1	-	-	-	2	2

**2011/12 Coaching Stipends: 59    Projected 2012/13 Coaching Stipends: 59**

- a. Minimum # of Coaches includes where applicable one (1) head coaching stipend, with remaining stipends allocated to assistant coaching positions. Both head and assistant coaching stipends may be split upon agreement of Head Coach and Athletic Director.
- b. Sports/Activities listed with both minimum/maximum number of coaching stipends will hold steady throughout the duration of this agreement, unless mutually changed during contract negotiations or contract maintenance.
- c. Determination on the number of coaching stipends will be evaluated on a bi-annual basis using average season participation numbers over the prior two year period for each sport. Average participation will be calculated by adding the beginning participation number with the ending participation number and dividing by two.

Beginning Participation Number: The number of athletes who have met the requirement for game participation (minimum number of practices for each sport) prior to the first game.

Ending Participation Number: The number of athletes who have met the qualifications established by the athletic department for earning a participation certificate in each sport. Athletes who quit at any point or discontinue coming to practice do not qualify.

The two-year prior participation average shall be used for adding, reducing, or maintaining the number of coaching stipends. This will begin with the 2014/15 school year utilizing 2012/13 and 2013/14 participation numbers.

- d. Reduction in coaching stipends will occur should the student-athlete/coaching ratio drop below the threshold stated in the above table. Reduction may include either a full or partial stipend and will be under the discretion of the athletic director.

## Student-Athlete/Coach Ratio for Middle School

The number of coaching stipends for middle school athletics will remain consistent with those offered during the 2011/12 school year. The number of positions will not be based upon student-athlete/coaching ratios, rather based on the current number of teams and/or squads.
