Woodland Public Schools
Educating for Excellence

April 29, 2016

Dear Parents/Guardians:

You may recall receiving the notice on the back page of this letter last November explaining the results of our ELL student's state testing towards learning language skills in our English Language Program. Last week the state of Washington notified our school district that Woodland Primary School has been awarded the Washington State Achievement Award. This award was only presented to eleven county schools in our region. This is a great honor and shows the results of what an effective ELL instructional program we have at our schools. We have worked hard to create engaging learning opportunities for your children that are research based and that have proven to help them learn language and achieve. The work that we do during and after school is paying off and the award that we have received from the state confirms that our ELL program is helping our students!! We also want to thank you for ALL of your support that you provide for your children in helping them with their efforts in learning English. This makes such a difference for them in school. This is a great achievement that we are very proud of and we want you to know that you are a big part of helping us win this award as well. We will continue to achieve great things together!!

Sincerely,

Deb Kernen
