

## Establishing Login Information for Online Enrollment

Follow the Instructions below if you are brand new to the district and do not have a Skyward login. Skyward logins do not connect across school districts. If you have had a Skyward login in a previous school district, you will still need to establish a new one with Woodland if you have never attended.

There are two parts to establishing login information. The first is assigning your username, and the second is setting a password. Please follow all steps below.

1. Access Online Enrollment: [New Student Online Enrollment](#)
  - If you do NOT have an account, choose **No** in the **Do you already have an account** field. Fill Out the remaining information and click Submit. Your information will be sent and login information for online enrollment will be created.
  - If you do have an account, please skip these steps and proceed to [Skyward Family Access](#), to login and start registration or to reset your password if you do not know it.
