

STUDENT CONDUCT EXPECTATIONS AND REASONABLE SANCTIONS

The ~~Board~~board acknowledges that student conduct and behavior ~~are~~is closely associated with learning. An effective instructional program requires a wholesome and orderly school environment. The ~~Board~~board therefore requires that each student adhere to the rules of conduct established by the ~~District~~district and its various schools and programs and submit to ~~discipline~~corrective action taken as a result of conduct violations.

~~Students are expected to:~~

- ~~1. Respect the rights, person, and property of others;~~
- ~~2. Pursue the required course of study;~~
- ~~3. Preserve the degree of order necessary for a positive climate for learning;~~
4. Comply with District rules and regulations; and
5. ~~Respect the authority of staff and reasonable discipline imposed by school employees and respond accordingly.~~

Students who involve themselves in acts that have a detrimental effect on the maintenance and operation of the school or the ~~District~~district, criminal acts, and/or violations of ~~District~~school rules and regulations may be subject to ~~discipline~~corrective action by the ~~District~~district and prosecution under the law.

~~The superintendent or designee will develop reasonable rules of student conduct (see Procedure 3240P) for the preservation of the health and safety of students and employees and the preservation of an educational process that is conducive to learning. Such rules will state with reasonable clarity the types of misconduct for which discipline, including suspension and expulsion, may be imposed.~~

~~In accordance with state law, the student conduct rules adopted by the District will be interpreted to ensure that the optimum learning environment of the classroom is maintained, and that the highest consideration is given to the judgment of qualified certificated educators regarding the conditions necessary to maintain the optimum learning environment.~~

Student conduct rules will be enforced by school officials:

1. On school grounds during and immediately before or immediately after school hours;
2. On school grounds at any other time, including when school is being used by a school group(s) or for a school activity;
3. Off school grounds at a school activity, function, or event;
4. Off school grounds if the actions of the student materially or substantially affect or interfere with the educational process; or
5. Upon~~In~~ school-provided transportation, designated ~~District~~district bus stops, or any other place while under the authority of school personnel.

Students are expected to:

1. Respect the rights, person, and property of others;
2. Pursue the required course of study;
3. Preserve the degree of order necessary for a positive climate for learning;

~~In addition to the rules established in Procedure 3240P, schools may develop and implement site-specific rules for student conduct (examples include establishing off-limits areas, prohibiting food on carpet, etc.). Such rules must be consistent with the District's student conduct rules.~~

4. Comply with district rules and regulations; and
5. Submit to the authority of staff and reasonable corrective action imposed by school employees and respond accordingly.

The superintendent or designee will ~~make annually disseminate~~ the ~~District's~~district's policies and procedures regarding student ~~conduct rules and student discipline available~~corrective action to students, parents/guardians, employees, and the community. The District will ~~annually provide policies/procedures 3240 and 3241 to District personnel, students, and parents/guardians, which may require language assistance for students and parents/guardians with limited English proficiency.~~

~~The superintendent or designee will ensure that employees and contractors are knowledgeable about the District's discipline policies and procedures.~~

~~The District will develop and periodically review its discipline policies and procedures with the participation of school personnel, students, parents, families, and the community. During the development and review of discipline policies and procedures, the District will use disaggregated data collected under RCW 28A.300.042 to monitor the impact of the District's discipline policies, procedures, and practices and to update such policies and procedures to improve fairness and equity in the administration of discipline.~~

The district, in consultation with staff, students, families, and the community, will periodically review and update its student corrective action rules, policies, and procedures. The principal and certificated employees in each school building will confer at least annually for the purpose of developing and/or reviewing building ~~disciplinary~~corrective action standards and the uniform enforcement of those standards, in accordance with RCW 28A.400.110.

The district will annually collect and review data on corrective actions taken against students within each school and use such data to monitor the impact of its discipline policies and procedures. The data will be disaggregated by subgroups in accordance with RCW 28A.300.042. The review will include short-term suspensions, long-term suspensions, expulsions, and emergency expulsions. In reviewing this data, the district will determine whether it has applied corrective action to a substantially disproportionate number of students within certain subgroups. If disproportionality is found, the district will take action to ensure that it is not the result of discrimination.

The superintendent ~~or designee~~ will develop written rules of conduct that will carry out the intent of the board and establish procedures necessary to implement this policy.
