Please tell me how it's going in these areas

How is the start of your year?	What supports are working?
<p>Good, I felt more confident and supported than I ever have. I feel like I knew what I was doing and my classroom was ready. On the first day, I had my mentors check in and my best friend in the building.</p> <p>If I need anything the administration has been very receptive and supportive to my questions and needs.</p>	<p>Mentor model, coaching, NET week was awesome. Day with my Peer to Peer mentor was excellent. Built partnership within the department - super helpful. Tech part with Steve Rippl was excellent because there are tools used here that he shared that were really good. The ability to monitor student computers and shut sites down etc. was REALLY good and we could use more time on that. Pretty good at Google classroom already.</p> <p>A lot of NET was helpful. I need a refresher on some of it. TPEP follow up would be really good.</p>
<p>It was great. There is always a time for trying to get to know your students. I find my students are really engaging and pleasant, I feel very welcome.</p>	<p>YES absolutely. Jen is incredibly helpful. Whenever I have questions she is available and thorough. She is patient and I couldn't ask for a better resource.</p>
<p>Going really great.</p>	<p>Ashley was a great support. I feel very supported by Sarah and Ashley.</p> <p>I was glad we did benchmark testing.</p> <p>NET week was also very helpful.</p> <p>The tour was helpful even though I worked here, I learned so much and have found it helpful.</p>

<p>GREAT so far. Better than expected, because usually the beginning of the year is a crazy time for counselors. The systems, support staff and resources have never left me feeling like I am on an island.</p>	<p>All the secretaries we have and admin have been incredibly supportive. Gena does a lot of student interaction and is excellent. We work well with Luke to problem-solve. The teachers are really supportive. The secretaries have been incredible (said 2x). SpEd team members are awesome and Tara is too.</p>
<p>Good, challenging with the 32 kids. Then switching to the new smaller group of kids. Besides that everyone has been really nice and easy to work with. I work well with Hansen.</p> <p>How lunch works was a little unclear with the cards and lunch buckets for kids to return lunches to the classroom, etc.</p>	<p>The people in this building are amazing! Kel, Marlee, and Ashley. Being new you don't wanna ask but they just come and check-in.</p>
<p>The amount of PD was a little overwhelming - Estrellita and El Camino - JUST A LOT! of meetings and evenings. Planning time has been impacted.</p>	<p>NET week . Support staff are very accessible. People are amazing. Ashley checked in all the time which was really nice. She would check in and observe but also trusted me. I have felt VERY SUPPORTED. Communication at this school is REALLY good. Weekly memos and calendar invites, etc. That is not every school.</p>
<p>Really good start. It's really cool to teach in Spanish! I really like that and we get to meet with the other Spanish teachers here at CES to collaborate.</p>	<p>My team and Ashley are awesome but I am the only Spanish in my grade which is hard.</p>
<p>It started great! I felt very prepared and confident to begin the year. I know how the building works and all that. It's going really smoothly.</p>	<p>Staff - Malinda, team, my P2P, First-grade team is amazing!!</p>
<p>I feel like it was really good. We had to make some changes because the second grade was really behind. The changes have felt rushed. If we had the schedule sooner it would have helped. Walk to read is just starting. Hard to find a routine when we layer in changes to the schedule for Walk to read.</p>	<p>The check-in/check-out with the kids, and the support staff are awesome. Malinda is amazing. She checks in and makes sure we have everything. Also, the recent team planning day was amazing - that REALLY helped us - so beneficial!</p>
<p>It has been really good. I think my lessons are increasingly getting better as I've gotten to know my learners better. Building relationships has helped a lot. It's been a really good start. Gaining confidence with CKLA, etc.</p>	<p>NET week REALLY helped with logistics. I just really liked NET a lot.</p> <p>I loved hearing about the admin and your families. Made this place feel like home.</p> <p>Team time has been really important.</p> <p>I LOVED the bus ride.</p> <p>Tech was incredibly helpful and responsive. They are so on it. I love how you push and use tech.</p>

<p>Fantastic!</p>	<p>BEST, meetings with Denise, wonderful SpEd team</p>
<p>It's been great. The kids have been excitable and fun.</p>	<p>The NET week was great. PBIS setup is really strong here - very structured and consistent - really helps my classroom for reinforcing behavior in my classroom. The fact that everything is on google drive. The team had so much ready to share. The peer-to-peer piece is really strong and I really loved that the person to ask has been really nice</p>
<p>It's been a little overwhelming with a steep learning curve but that's not unusual. Just the nature of things being new and a new role.</p> <p>I am just really impressed with Woodland! ALL support staff (ie coach, dean, leadership class, etc). You REALLY support new people well and I've been to many school districts. I tell all my teacher friends.</p>	<p>Because of the ML program the new curriculum training with CKLA didn't happen until right before we started. Not a big deal though.</p> <p>A LOVE in place that is so awesome with support - all the roles are helpful.</p> <p>The peer-to-peer is HUGE.</p> <p>Regular check-ins have been excellent and really helpful.</p>
<p>Super super super fantastic. I am so happy to be here and grateful for all the support that's available. I had a heart-to-heart with Malinda to share. It was hard to ask for help because I had a terrible experience in my last district. This place is so supportive. I don't even want to punch the Assistant Superintendent here.</p> <p>You walk away from every conversation feeling supported, valued, and respected. I come in everyday excited and knowing I am going to be successful.</p>	<p>I think the support room is amazing. I love how Stacy will check-in and she resources others to help when short-staffed.</p> <p>Denise is super supportive and amazing. Instructions for everything has been really helpful Tech and maintenance are incredible - very responsive</p>
<p>Good, really busy. A couple of kiddos - resources helped me with rocking chairs and that has helped avoid dramatic chair tips.</p> <p>Very fast and busy but really great - I have been getting a lot of behavior support from day 1 and the junior explorer has been amazing.</p>	<p>Explorers are a huge benefit, they are already showing huge gains with that. Behavioral support has been immense.</p> <p>Weekly check-ins with Malinda and my team.</p> <p>The coach and team and other teachers have been helpful. We all feel VERY supported, even when you feel wobbly and worried we are quickly supported.</p> <p>I had a lot of aha moments in the LETRS and CKLA training and the way we approach it here in Woodland and that</p>

	really helped in our meetings with parents.
<p>It's been great! There's been lots of support from Denise and Malinda. During the first week before we had kids, they came around multiple times to see what we needed. They would say, Do you need anything and they took care of it.</p> <p>They had us think through all our routines and make a list so we could teach those routines really easily and got us really prepared for Kinders.</p>	<p>The training was really helpful. Coach, principal, and Team time was REALLY nice at the beginning of the year.</p> <p>Just so you know all during NET week people were all saying - we are never leaving here. It's a great district to work for!</p>
<p>It was fine. There were several important aspects to my job that I had to figure out as I went along. I am finally at a place where I think I have almost everything figured out.</p>	<p>Jenna as my psych mentor and Shelby as my in-building mentor has been great!</p>
<p>Really good. I came from MS art so it was a shift. I feel positive with the curriculum but adapting it to the lower grade levels. At this point, I am remembering kids' names and behaviors, etc. I don't feel stressed now.</p>	<p>All the support is really great and I feel confident in my role here. I know I have someone to talk to when I have questions. I can ask anyone for help - everyone is helpful.</p>
<p>Good. Working here last year helped.</p>	<p>I knew ARC and my experience last year helped in many classrooms and that helped me feel confident. Mrs. Rodriguez is an excellent mentor to direct and support me.</p>
<p>So, my intervention reading group ...I was given the stuff on Friday with the expectation to teach on Monday. It was too short notice. Now we are switching again and are too short of notice.</p>	<p>I think all the training sessions were VERY useful. Math training we just had Monday was too late. I wish I knew things that we didn't know. I have probably spent a lot of time finding info on my own so I wish we had that sooner.</p> <p>Everything during NET week was very useful and structured. We do get very good support with peer to peer mentors, etc. Ashley will be coming in to model SOAR stuff next week which will be very helpful.</p>

Really good.

I love that Ashley and Malinda included me in LETRS. I wasn't sure and she said yes and I was so glad to be included as it relates to what's being taught in classrooms in order to plan support for students.

Jake was awesome to have everything I needed when I asked.

Kel and Marly did an awesome job presenting PBIS systems.

I love that I have had Shelby and Jenna to lean on . They are amazing. The Peer to Peer model is excellent.

Woodland has been amazing and so welcoming and people are giving and helpful. I am very supported and I just love it here.

It was great entering Woodland. I really like that everyone is super welcoming. I never felt excluded or dumb for having questions.

Everything. Everyone is amazing.

I feel better about the curriculum now. Angela bought supplemental resources for us that helped. Over the summer before starting I was very overwhelmed. I was really nervous, but I am getting the hang of it now...Emily and my mentor were very helpful but the NET team didn't know anything, so that was hard.

Tara was very helpful in EVERY area that wasn't curriculum.

Tara, mentor, teammate Emily.

I really liked the bus tour! I remember being here as a student teacher so I didn't know Woodland and knowing where our kids come from.

The length of presentations being short was perfect. Ability to keep us engaged and I probably couldn't have remembered more than what we got. It was a perfect amount of info.

Going through Frontline was very helpful.

The tech department is very good and helpful.

<p>My personal finance classes have been going great. My Boss Business class hit some snags and I am working with Russel to get back on a new track.</p>	<p>My bi-weekly meetings with Tara have been extremely helpful.</p>
<p>Personal Finance is going really well. They left everything they did each day which has been amazing. The shared drive has been really helpful. First 2 months are pretty well laid out. We have notes, but her pacing was different to see how to support. We were looking at standards and it's so broad and we'd be interested in mixing in some ancient interests.</p> <p>BOSS business with the curriculum has been a challenge. Is what we have really going to work? Kids aren't really loving the class.</p> <p>Moses has felt a little iffier on SS and I pick up 2 periods next semester.</p>	<p>Feeling really good.</p>
<p>AWESOME -</p> <p>Evaluation. Our cycles of inquiry. Honestly it's been amazing - behaviors are managed really well here and I feel like I can teach the kids.</p>	<p>NET week was awesome.</p>
<p>For choir I feel set, but guitar is a little different because for guitar there was nothing prior to work with.</p>	<p>Let's get Brent here...</p>

<p>Really great so far. I felt REALLY welcome and it's such a positive environment. I LOVE it here. I feel like I am on a roll with Freshmen.</p>	<p>Mentor teacher was helpful. I needed more help with Skyward. I never checked messages through Skyward - didn't know we could get messages.</p>
<p>Good. What I would expect. A lot to figure out but to be expected.</p>	<p>Tara Supports were impressive Time in the classroom was awesome during NET week. It was recognized we needed it. It's hard to hit the ground running without that time.</p>
<p>Not enough paras so planning and lunches have been impacted. But going really well but with a lot of learning. Never scored one before. New assessments (Woodcock Johnson) My experience has mostly been behavior not DSP so steep learning curve.</p>	<p>Devon and Jody have 2 planning questions a day but we seem to have only one (maybe).</p>
<p>Overall fantastic. Starting with students and staff have been very encouraging and helpful. EVERYONE has been really helpful. Literally everyone has been amazing.</p>	<p>Staff support is amazing. People are on the same page.</p>
<p>The only part I didn't feel prepared for was DIBEL - progress monitoring. I think the year is going well. I still feel like I haven't totally landed on everything I am doing, but nothing unusual - just newness.</p>	<p>Anita Archer's conference was excellent. Tara has been really supportive.</p>
<p>Great! I've been really really happy here. It was incredible to get a paycheck at NET week. For our brand new teachers it was amazing. I thought it was very thoughtful. Time given in the classrooms was also really wonderful.</p>	<p>Partnering with Netland prior to starting really helped with the curriculum.</p>
