**Please check only one box below:**

- a. *Annually report the students served in the district's Highly Capable program in CEDARS.*
- b. *Annually complete applicable portions of the End-of-Year Report (iGrants Form Package 250). This includes annually reviewing and validating CEDARS data.*

Goals for District Program	<input checked="" type="checkbox"/>	All educators recognize the learning and developmental differences of highly capable students, promote ongoing self-understanding, awareness of their needs, and cognitive and affective growth of these students to ensure specific outcomes. All assessments provide information about identification, learning progress and outcomes, and evaluation of programming for highly capable students. Educators assess the quantity, quality, and appropriateness of the programming and services provided for highly capable students by disaggregating assessment data and yearly progress data. We ensure the evaluation plan is purposeful and evaluates how student-level outcomes are influenced by one or more of the following components of gifted programming: 1) identification 2) curriculum 3) instructional programming and services 4) ongoing assessment of student learning 5) counseling and guidance programs 6) programming resources 7) programming design, management, and delivery. The district professional development initiatives to all teachers that will support the academic learning needs of the highly capable students include differentiated instruction, questioning, and common core.
Academic Goals for HCP Students	<input checked="" type="checkbox"/>	<p>Highly Capable Program Goals ~ 2022/2023</p> <p>Gifted learners need a faster pace and an opportunity to explore concepts at a deeper level than is offered through the standard curriculum. They also need interaction with their intellectual peers. With this in mind, the learner-focused goals of the Woodland School District Highly Capable Program are:</p> <p>Equitably identify students who have high intellectual, academic, and creative thinking potential based on district criteria;</p> <p>Provide differentiated instruction appropriate to the needs of gifted learners;</p> <p>Place students among their intellectual peer group;</p> <p>Provide a research-based, best practices program for eligible students at each school;</p>

		<p>Develop in students a sense of self, lifelong learning, quality production; and critical/creative thinking abilities; and</p> <p>Provide the skills to enhance life readiness.</p> <p>Additional goals to support our Highly Capable Program are:</p> <p>Engage in ongoing evaluation of students' progress and placement;</p> <p>Provide professional learning opportunities in order to maximize teaching effectiveness in differentiating for the academic and social/emotional needs of gifted learners;</p> <p>Engage in ongoing collaboration and program evaluation and revision with students, family and community members; and</p> <p>Celebrate and showcase student learning.</p>
<p>Communications</p>	<p><input checked="" type="checkbox"/></p>	<p>Parents are provided many opportunities to meet with teachers and highly capable staff during the year. Surveys are also provided at the end of the year in order to acquire feedback about programming.</p>
<p>Variety of Services at Grade Levels</p>	<p><input checked="" type="checkbox"/></p>	<p>Program Option for grades K-4: At the elementary level students will be served through classroom opportunities and differentiated instruction provided by the classroom teacher. Differentiated instruction is a researched based method of teaching that addresses the individual needs of the student and includes special teaching strategies for modifying curriculum content, pace, process, products and learning environment. New state common core standards have set guidelines for instruction for all students in higher level thinking skills, including critical thinking, problem solving, interpretation, analysis and evaluation. Our primary effort is to support teachers in developing more varied and flexible approaches toward grouping, and instruction to better meet the needs of a wide range of learners in their classrooms. Consultation with the building learning coaches, gifted coordinator or building principal is provided to support teacher efforts at differentiating instruction for highly capable learners. Curriculum adaption is also considered, as well as compacting curriculum, clustering students of like academic ability, and other best practices. Exceptionally highly capable gifted and talented learners are viewed on individual need-based criteria and needs are met accordingly.</p> <p>Program Options for grades 5 &amp; 6: 5th grade students will participate in Science Olympics and 6th grade students will participate in Lego Robotics activities. Students will learn how to design, build, and program robots using Lego Technix pieces. This is very open-ended as there is no one correct way to build or program the robots. There are multiple possible answers to the problems that will be posed. This work will be done in teams with no more than two members to a team.</p> <p>Program Options for Grades 7 &amp; 8:</p> <p>Lego Robotics Classes: Students will learn how to build and program robots that are made out of Lego Technix pieces. This is a very open ended class, as there is no one correct way to build or program the robots, and there are thousands of correct answers to the problems that will be given. Many of the problems will come from either this year's Lego robotics competition or last year's Lego robotics competition. This work will be done in teams with no more than two members to a team. Some students may decide to try out for our Lego robotics team that competes at local and state competitions in the fall and winter.</p>

		<p>Science Olympiads-Grades 7 &amp; 8 Algebra 7 &amp; 8 Geometry 7 &amp; 8 For Highly Capable Students in Grades 7-12:</p> <p>At the middle and high school levels, highly capable support services generally include differentiation in all classrooms, great elective offerings at each school, and adaptations to the general curriculum as needed. In the middle and high school all teachers are encouraged to use their knowledge of highly capable characteristics and needs to best support their students. Teachers are encouraged to use an interdisciplinary curriculum developed around higher order reason, constructing meaning through inquiry, advanced content and concepts, and relevant issues and themes. Many cognitive learning models are employed, such as concept mapping with literature and vocabulary webs.</p> <p>Program Options for grades 9-12:</p> <p>Acceleration and counseling are available for highly capable students Grades 9-12. Advanced Subject Placement, Honors, Pre-AP/IB courses are offered and encouraged for students identified as highly capable.</p> <p>In order for students to participate in the pull-out programs, they must be able to comply with and adhere to homeroom classroom expectations and be self-managers of their behavior. Students are required to attend all Hi C classes as outlined in the Highly Capable Program Guidelines. Unless some concern arises from the teachers or parents, continued participation in the Hi C Program will be automatic.</p>

## Equitable Identification of Low-Income Students [RCW 28A.185.020](#)

### Update as needed how you address equitable identification of low-income students as required by law [RCW 28A.185.020](#).

1. Identify person(s) responsible for developing and implementing LEA equitable identification plan to address low-income students.

Jake Hall, Executive Director of Learning Supports  
 Phillip Pearson, Principal of Woodland High School  
 Russell Evans, Principal of Woodland Middle School  
 Denise Pearl, Principal of North Fork Elementary School  
 David Starkey, Principal of Columbia Elementary School  
 Malinda Huddleston, Principal of Yale Elementary School

2. LEAs may find systemic barriers to identifying low-income students, such as: limited communication about referral process, testing outside school day, reliance on standardized testing only, no routine review of existing data, communication in English only, "cut off" scores on standardized tests, lack of information by school front office staff, and others.

OSPI suggests the following possible actions to reduce barriers to identifying low-income students: screen all students at certain grade level(s) to "screen in" students who may be overlooked, look for above-grade-level WaKIDS indicators, assess rapid growth over time with WaKIDS or ELPA21, test during school day in home school, review IEPs for students with disabilities for indicators of giftedness (twice exceptional), inform staff of gifted indicators and solicit referrals by staff, use alternative assessments for English learners, routinely review all relevant data for any new student, include referral information in enrollment packets, reach out to families by native language speaker.

### **Please update actions your LEA takes to prioritize equitable identification of low-income students, and the LEA's process to implement during the 2022-23 identification cycle.**

During the 2021-22 school year we screened all Kindergarten and all new K-4 students for identification of Highly Capable with at least three measures considered in their portfolio: CoGat 7, Classroom Based Assessments, iReady, Acadience and/or previous State Assessments.

We also defined and registered a team of staff and administrators from K-8 grades to attend the WAETAG conference in the Fall of 2021, met as a Multidisciplinary Selection Committee (MSC) in the Spring 2022, and will continue Professional Development and program alignment.

We have a team of staff attending the annual WAETAG conference in the Fall of 2022. This team will continue to implement and monitor programs in the schools/classrooms for students identified as Highly Capable.

## Criteria for Identification [RCW 28A.300.770](#)

### Explain how you address criteria for identification as required by [RCW 28A.300.770](#).

3. **Update actions your LEA takes to address these criteria in your identification policy and procedures, and the LEA's process to implement during 2021-22 identification cycle.**

LEAs must have identification procedures for Highly Capable programs that are clearly stated and implemented using the following criteria:

- a. Districts must use **multiple objective criteria** to identify students who are among the most Highly Capable. Multiple pathways for qualifications must be available and **no single criterion may disqualify a student from identification**.
- b. Highly Capable selection decisions must be based on consideration of **criteria benchmarked on local norms**, but local norms may not be used as a more restrictive criterion than national norms.
- c. **Subjective measures such as teacher recommendations or report card grades may not be used to screen out a student from assessment**. These data points may be used alongside other criteria during selection to support identification, but may not be used to disqualify a student from being identified.
- d. To the extent practicable, **screening and assessments must be given in the native language** of the student. If native language screening and assessments are not available, a **nonverbal screening and assessment** must be used.

This school year the Woodland School District will continue to have multiple objective criteria for identification of Highly Capable including staff and parent reports, state assessments, classroom based assessments and achievement and ability assessments. We will use benchmarked local norms for standardized assessments but we will also consider teacher and parent reports and/or direct observation of the student by a school psychologist and/or IEP case manager. To the extent practicable we will have all Highly Capable assessment in students' native language.
