How does the use of technology have a positive impact on student learning in your school?

Technology is crucial to the existence of Lewis River Academy. Technology is used extensively for the majority of our instructional materials, our model for delivering instruction, and our assessment of student learning.

How does parent, family, and community involvement impact student learning in your school?

Families are involved in the learning of students in Lewis River Academy as “partners” in the teaching and student learning. From the intake meeting to the weekly check-ins we promote family partnerships as a necessity for a student to successfully grow academically in our “home study” program.
