

Voca**Career and Technical Education**

The basic standards for vocational programs as established by the state superintendent of public instruction are as follows:

1. ~~The primary objective of the program is the development of competencies that lead to entry level employment as well as entry into advanced vocational training; or, for home and family life education, to prepare for the occupation of homemaking. No courses shall be carried out separately on the basis of the gender of the enrollees.~~
2. ~~Specific program objectives are defined in terms of occupational competencies to be developed.~~
3. ~~The program is based on identified need and is developed and conducted in consultation with the functioning representative advisory committee composed of employers and employees actively engaged in the occupation.~~
4. ~~Instructional content is based on an analysis of the skills and knowledge required.~~
5. ~~Leadership development through planned activities, providing for transition from school to job must be an integral part of the instructional program. The vocational education student organizations meet this need.~~
6. ~~Students are counseled for enrollment on the basis of their interest in the occupation and their ability to profit from the instruction. No discrimination on the basis of gender shall exist in counseling students for vocational programs.~~
7. ~~Teachers are occupationally competent and vocationally certificated in the occupational area in which they are to teach.~~
8. ~~Instructors are to be provided time and travel for consultation, coordination and instructional activities beyond the classroom environment, as well as for appropriate professional meetings including inservice education sponsored by the division of vocational technical and adult education services in the office of the state superintendent of public instruction.~~

~~Instructional~~

The district's plan for its Career and Technical Education program will be approved annually by the board of directors. All components of the plan will meet the Career and Technical Education program standards as established by the Office of State Superintendent of Public Instruction (OSPI).

A. The District's Career and Technical Education (CTE) Plan:

The district's CTE Plan describes how the district will deliver career and technical

education to its students. The components of the district's CTE plan will ensure:

- 1. Application and contextualization of the related state academic learning standards;
- 2. Responsiveness to state-wide or local high-demand occupations;
- 3. Compliance with the five-year plan requirements of the federal Carl D. Perkins Career and Technical Education Act;
- 9.4. Sufficient equipment and facilities to be used are comparable to those used in meet industry standards;

~~the occupation and are adequate for the maintenance of acceptable educational standards.~~

~~10. Provision is made for job placement assistance, annual follow up, and program evaluation.~~

- ~~5.~~ 11. Provision is made for effective vocational guidance which shall include Adequate student and teacher opportunities to connect to the business community including, but not be limited to, occupational information industry job shadowing, mentorships and internships;
- 6. The integration and application of leadership and employability skills;
- 7. Instructors connect student learning with work, home and community;
- 8. Preparatory programs leading to a certificate or credential that is state or nationally recognized;
- 9. Courses are sequential, rigorous and counseling-based on an analysis of technical skill attainment;
-
- ~~10.~~ 12. A vocational class is Performance Measures and Targets established by the state are met or exceeded;
- 11. No discrimination in any aspect of its CTE Programs under RCW 28A.642.010;
- 12. Reasonable modifications are made to all CTE policies, procedures and practices which are necessary to avoid discriminating against a student based on disability unless the district can demonstrate that such modifications would fundamentally

alter the nature of a CTE course or program;

13. Teachers are CTE certified in the areas in which they instruct; and

14. Courses are structured so that the maximum number of students per class shall be determined by the number of training stations, safety factors, and individual instruction requirements of the specific skills being developed.

B. Performance Measures and Target – Accountability

The district will adopt performance measures and targets in at least the following areas:

1. Sufficiency of courses allowing students to earn dual credit for high school and college;
2. Rates of student participation in and completion of high-demand programs; and
3. Performance measures and targets established by the workforce training and education coordinating board, including but not limited to student academic and technical skill attainment, graduation rates, post-graduation employment or enrollment in post-secondary education and other measures and targets as required by the federal Carl D. Perkins Act.

C. Course Equivalencies

Each of the district's high schools will adopt core academic course equivalencies for high school Career and Technical courses, provided that the Career and Technical Education course has been reviewed and approved for equivalency credit by a district team appointed by the superintendent or a designee, in accordance with district policy 2413, Equivalency Credit for Career and Technical Educational Courses.

D. Career and Technical Education Programs of Study

A program of study is a sequence of courses that identifies the secondary and post-secondary content that students need to take to ensure that they will have the knowledge and skills needed for a seamless transition to post-secondary options.

The district's CTE program(s) of study will:

1. Incorporate secondary CTE academic and elective courses and local graduation requirements as well as post-secondary education elements;
2. Include coherent and rigorous academic content aligned with state learning standards and relevant career and technical content in a coordinated, nonduplicative progression of courses that are aligned with post-secondary education in a related field;

3. Include courses aligned with appropriate state academic, industry, leadership and employability standards; and
4. Lead to industry-recognized credentials, an academic certificate or degree, apprenticeship, employment or certificate at the post-secondary level.

E. Career Guidance and Counseling

Career guidance and counseling programs will include the exploration of options and opportunities for Career and Technical education at the secondary and post-secondary level and exploration of career opportunities in emerging and high-demand programs. (See WSSDA policy 2140, Guidance and Counseling)

F. Advisory Committees

1. Advisory committees will participate in the determination of program goals, and review and evaluate program curricula, equipment and effectiveness.
2. Advisory committee participants will include representatives of business and labor who reflect the local industry and the community. Members will actively consult with other representatives of business, industry, labor and agriculture.

The superintendent, in consultation with the director of CTE programs, will select members of the advisory committees. Advisory committee members will be approved by the board.
