

Together We Grow Excellence

Celebrating An Award-Winning Year

Woodland School District is celebrating a season of excellence! Seven Woodland High School athletic teams earned recognition for their academic achievement; five received WIAA Scholastic Awards for team GPAs above 3.0, while two teams boasted the highest average GPA in the state in their respective leagues. Together, these teams represent approximately 166 student-athletes demonstrating that excellence extends well beyond the playing field.

Our classrooms were also recognized, with all three elementary schools earning Washington School Recognition Program honors for student growth.

These achievements reflect the dedication of our students, educators, families and coaches to academic excellence, equity and growth.

Families Spoke, We Listened

Last spring, we invited Woodland families to share their perspectives, and more than 463 parents and guardians participated in our survey. We are grateful for their thoughtful feedback on ways we can strengthen communication, make curriculum easier to navigate, and clarify volunteer opportunities. This feedback will help guide building-specific goals and continued efforts to strengthen family partnerships.

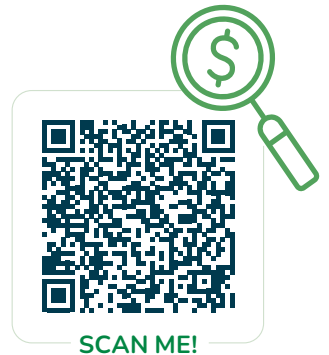

A Legacy of Civic Engagement

Woodland School District is expanding opportunities for students to engage meaningfully in civic life. Last year, Woodland High School launched Washington's first Civic Seal program, with five seniors earning inaugural seals for demonstrating civic knowledge and participation. Through Civic Power Hour, AP Government students also led community conversations on complex local issues. Opportunities like this, help students build agency and see themselves as active, informed participants in their school and community.

FISCAL RESPONSIBILITY

We are committed to responsible stewardship through trusted and transparent fiscal management. Every dollar used in Woodland Public Schools directly supports student learning, safety and opportunity. We partner with families and our community to align resources with student needs. **Take our survey to share your priorities and let us know what matters most to you:**

As I reflect on another year in Woodland Public Schools, I feel grateful and confident in what we are building together. Achievement continues to rise year over year in our award-

winning schools. That progress is no accident. It reflects the dedication of our educators and staff, the partnership of our families, and our commitment to ensuring every student gets the support and challenge they need.

We also face real challenges. Our schools are navigating rising costs and continued underfunding of special education and other essential services. Over the past two years, our Board and administration have made difficult choices to live within our means while protecting classroom instruction and essential services. Our 2026–27 budget continues that discipline, aligning resources with enrollment, and maintaining a healthy financial foundation.

We will continue to make thoughtful choices, seek efficiencies, and be transparent about finances, with students at the center of every decision.

What gives me the greatest confidence is our community. Our educators show up every day with purpose. Our families support and advocate for their children. Our Board provides leadership and accountability. Our community partners open doors and create opportunities. And our students continue to show us what is possible when they are challenged, supported, and believed in.

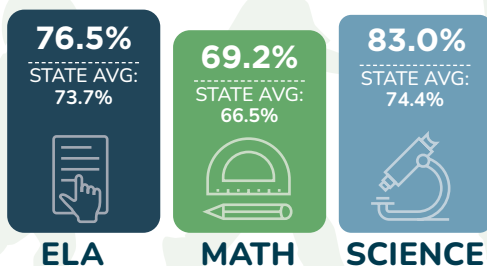

That is Woodland. We believe in the brilliance of every child, and together we are building a future full of possibilities for every student. Together, we grow excellence.

Thank you for believing in our kids and supporting our educators!
